CLAUDIO MANUEL MANZANARES

Software Engineer | Frontend, Mobile & OTT Video Streaming

Buenos Aires, Argentina | claudiommanzanares@gmail.com | linkedin.com/in/manzanares-claudio-manuel | github.com/9t96

PROFESSIONAL SUMMARY

Software Engineer with 7+ years of experience building production web and mobile applications, specialized in OTT and video streaming. At Telecentro, develop and ship Telecentro Play across Web, Android and iOS using Vue 3, JavaScript and Cordova, with hands-on work in native Android/iOS integrations, DRM-protected playback, Chromecast, push notifications, release engineering and CI/CD. Experienced owning features from estimation and technical design through production delivery, with additional exposure to Smart TV and Android TV platforms.

TECHNICAL SKILLS

Languages & Frontend: JavaScript, TypeScript, Vue 3, HTML5, CSS3
Mobile: Apache Cordova, Android/iOS native integrations, Cordova plugins, Push Notifications
OTT & Streaming: Shaka Player, DRM-protected playback, Live TV, VOD, Google Cast / Chromecast
Platforms: Web, Android, iOS, Android TV, Samsung Tizen, LG webOS
DevOps & Observability: Git, GitLab CI/CD, Docker, ArgoCD, Sentry
Additional Hands-on: Node.js, MongoDB, REST APIs, .NET, SQL Server

PROFESSIONAL EXPERIENCE

Frontend & Mobile Developer | Telecentro | Jun 2021 - Present

Telecentro Play - OTT video streaming platform

- Build and maintain Telecentro Play applications for Web, Android and iOS using Vue 3, JavaScript and Cordova, delivering Live TV and VOD experiences across production platforms.
- Helped build and launch Telecentro's first in-house mobile streaming application and custom Chromecast receiver, including sender/receiver integration and modern push notifications.
- Own features end to end: requirement analysis, technical discussions, solution design, estimation, implementation, testing, troubleshooting, release and production support.
- Develop native Cordova plugins and Android/iOS integrations when platform-specific functionality is required beyond the web layer.
- Implement and troubleshoot DRM-protected playback using Shaka Player, native players and third-party playback solutions.
- Manage Android and iOS release workflows including builds, code signing, certificates, provisioning profiles, Google Play / App Store submissions and publishing issues.
- Contribute to CI/CD, deployment and monitoring with GitLab CI, Docker, ArgoCD and Sentry; also participated in development and testing for Samsung Tizen, LG webOS and Android TV set-top boxes.

Fullstack Developer | NEORIS | Jun 2019 - Jun 2021

Client: Telecom Argentina / Personal

- Developed and maintained landing pages and public web sections for Personal's website.
- Built Telecom Argentina's Investor Relations website and its content-management back office using Vue.js.
- Estimated and implemented features, integrated frontend applications with Web APIs, and performed occasional .NET API changes plus light maintenance of legacy AngularJS and jQuery applications.
